

YA PHORN

Web Developer

ABOUT ME

Aspiring Web Developer currently pursuing an Associate Degree in Web Development at Passerelles Numériques Cambodia (PNC). Skilled in Front-End and Back-End development using React.js, Vue.js, Node.js, Laravel, MySQL, and TypeScript. Passionate about building user-friendly web applications, learning new technologies, and collaborating effectively within development teams. Seeking opportunities to apply technical skills and gain professional experience in software development.

EDUCATION

Passerelles Numériques Cambodia (PNC)
Associate Degree in Web Development
January 2025 – Present

Rovieng High School
High School Diploma
2022 - 2024

SCHOOL PROJECTS

• គម្រោង-Elibrary Project (Virtual Company 1)

Role: Frontend Developer | QA

Description: Development to build a Frontend Elibrary system using React.js (UI), Laravel (Backend), MySQL, and GitHub, with a responsive UI and efficient team coordination.

• E-commerce(JavaScript)

Role: Developer

Description: Built a real website using JavaScript, APIs, and SASS with Local Storage to save user preferences like units and theme. Ensured responsive design and managed team collaboration via GitHub and Jira.

• WordPress Software Deployment Project

Role: DevOps | Junior Wordpress

Description: Deployed and managed a WordPress site on AWS EC2 with Apache, PHP, and MySQL on Ubuntu, linking a custom GoDaddy domain via DNS and overseeing server operations through MobaXterm.

• Leave Management Design Project

Role: UX/UI design & Tool Specialist

Description: A team of 3 to design a user-focused approach, conducting research and guiding Figma-based layout, color, and typography decisions for a polished final product.

ADDITIONAL EXPERIENCES

• គម្រោង-Elibrary Project (Virtual Company 1)

Description: Mr Rady, PNC WEP Coordinator, has selected my project to present and demonstrate to Organisation internationale de la Francophonie (OIF).

HARD SKILLS
